Category: Best Managed Firm

Placing: Equal European Winner and Overall Equal Third

Responding to the problem of how to evolve from a successful first generation law Italian firm, to an “institutional” firm has earned Gianni, Origoni, Grippo & Partners a place in this year’s winning circle. The outcome of extensive discussions between partners produced a bold and challenging new Partnership Agreement in June 2006; this landmark agreement guarantees an independent approach to development and growth, the management of internal functions, and real respect for a professional marketing group.

The firm now includes 330 professionals in 6 Italian cities as well as London and New York. The new Gianni, Origoni, Grippo & Partners approaches to internal corporate governance provided a sustainable cultural shift in a country where the legal environment is very complex, and many firms have been unable to go from one generation to another.
