The first legal entity to join this initiative, GOP will collaborate as a Legal&Scientific Partner of Open-es

Rome, June 30, 2023 - International law firm Gianni & Origoni announces a partnership with Open-es, the open and inclusive alliance that brings together banks, industry groups, associations, and institutions with the aim to support all businesses in their path to measuring and improving their ESG performance and to help them become increasingly sustainable as well as competitive.

Gianni & Origoni is the first entity in the legal sector to become a Legal&Scientific Partner of the Open-es initiative. By joining the Firm will make its expertise and solid knowledge of regulatory aspects available to the business world whilst responding to the growing needs related to the topic of sustainability and the management of ESG factors.

Alessandra Ferroni, Partner at Gianni & Origoni and co-coordinator of the firm's ESG Focus Team states: "We are proud to join the Open-es community as a Partner, and to offer our experience and know-how in this strategic initiative that aims to promote and incentivize collaborative processes for sustainable business growth. We aim to bring to Open-es the experience that Gianni & Origoni's ESG Focus Team has gained over the years in advising its clients. It is a fact that more and more companies understand that an ESG journey cannot ignore timely and specialized legal expertise."

Today Open-es has more than 20 partners and 12,000 companies, a true community that, through dialogue, collaboration and identification of priority actions, is contributing to the sustainable growth path of the entire ecosystem.

Stefano Fasani, Program Manager at Open-es, comments: "No company can meet the challenges of a sustainable value chain alone, especially in light of the regulatory evolution in this area. A systemic and collaborative approach to connect all industry and finance stakeholders is structurally necessary. This is a call to action open to all, and we are proud Gianni & Origoni is joining this alliance and happy to collaborate with a law firm with such a strong ESG and corporate law expertise."
